Description

X-Cart can be used both as an out-of-the-box solution and as a powerful PHP shop
ping cart engine for a customized web shop. X-Cart is based on templates engine
and MySQL backend. X-Cart has support for online credit card processing, powerfu
l admin backoffice, built-in web-based templates editor, optional multi-vendor/m
all mode and a lot of other features. X-Cart is very easy to install, it has bot
h an user-friendly web installation wizard and guru-oriented shell script-based
installer.
