Beschreibung

Online Escrow Pro is a professional online escrow software which enables two parties (sellers and buyers) to engage in a sale without any risk. Online Escrow Pro is fully customizable and 100% template-based so you can edit the site design with ease. For buyers, they can be sure that the goods they receive from the sellers is in 100% good condition and sellers will be protected from credit card fraud and online scams. If you run a web hosting business, domain appraisal service or a domain registration website, you can add value to your site by offering your customers escrow service. Start your own escrow service just like Escrow.com and earn money by charging members escrow fees.
