Beschreibung

ZZ:FlashChat is a simple MySQL-based Chat Program with Flash-Interface. The advantage of using flash is that no annoying page refreshes are required for it to work.
FlashChat is a combination of Flash, PHP and MySQL.
ZZ:FlashChat was designed to be an easy to install, easy to handle and (very important) easy to customize Chat-Program, which should give the user a well functioning chat engine with the possibility to adjust the interface to his needs.
