Beschreibung

AlstraSoft Anti-Spam is the final solution that you will need to stop spam forever. AlstraSoft Anti-Spam allows you to block spammers by email, domain or filter so as to filter unwanted email items from your POP mailboxes. When mail is sent to your e-mail account it is first checked to see if it is allowed, if not the user is sent an email that they must respond to before you ever see the e-mail. If a spammer does respond you simply block his email address forever. In addition, you can start your own Anti-Spam Email business now with AlstraSoft Anti-Spam and start earning money by offering anti-spam email solutions to your customers. AlstraSoft Anti-Spam has a built-in membership system that is integrated with Paypal and 2Checkout.com payment system. Great for ISPs or companies offering web hosting and email services.
