Beschreibung

ModuloCom Affiliation Server (MAS) is a complete software solution for creation and management of affiliation programs. MAS allows an Advertiser to: - define affiliation programs, - recrute affiliates and register them into the programs, - distribute all HTML contents on the affiliate web sites, - track clicks, sales and leads on the Advertiser's links and web site, - calculate commissions earned by the affiliates, - produce statistical reports on the programs, - organize the payments of the affiliates. - Comes with complete administration and affiliates areas. MAS exists in two versions: - MAS Multi-Site: installed on many servers and used for multiple web site. Designed for Web Hosting and service providers, allows extra income. - MAS Single-Site: installed on one server and used for one domain.
