Beschreibung

Syndikut Visitors online is a flat file, PHP script that displays how many visitors are viewing your website. When 'VOL' displays users online you & your visitors can click the amount and be shown all the visitors online by counties with flags! That's not all! in v3 all visitors are displayed along with their country, flag, ip address, browser, & operating system. You can choose to sort the visitors online by their country, flag, ip address, browser, operating system & the time of visit. VOL v3 is template driven and includes a language file for improved customizing & possible translation. VOL is very simple to install - No SQL Required! View the features.
