Description

The website owner sooner or later will realize that a live chat room is one of the crucial elements required for boosting the popularity of the site.

123FlashChat can add a chat room to websites like dating service or social network, etc., users fully integrated, text and video chat. It can be easily integrated to the leading CMS or forums too: Joomla!, phpBB, vBulletin, etc. It is full-featured, avatars, smilies, flash emotions, voice messages, multiple rooms, dynamic skin change, improved video chat... even a media player.

123 Flash Chat is based on Java server, Flash or HTML/Ajax client.

Both end-user and administrator will find no problems with adjusting 123 Flash Chat thanks to its ease of use. 123 Flash Chat works well cross-platform, such as Windows, Linux, and Mac OS. Lately it can run on iPhone and iPad too!

123 Flash Chat has gained clients' confidence worldwide for superior performance, ease of use and impressive amount of features. It's no wonder that now 123 Flash Chat is in high demand and used by more than 400,000 websites in over 150 countries.
