Description

PHP-Nuke Chat Addon helps you embed a live chat room in PHP-Nuke website, which makes the PHP-Nuke website more interactive and shorten the distance between your website visitors. With PHP-Nuke chat addon, websites get a live chat room with PHP-Nuke database seamlessly integrated, simple, secure and nice looking with full chat features.

Features of PHP-Nuke Chat Addon:

1) Show Chat Data in Chat Block

- * how many people are connected to the chat server

- * logon chat user number

- * chat room number

- * chatting user name list in all chat rooms.

2) Auto-login.

The best part of the PHP-Nuke chat addon is that once logged in PHP-Nuke, users don't have to re-enter their username or password again to access chat.

Precondition

Before installing the PHP-Nuke chat addon, please download 123 Flash Chat Server software from <http://www.123flashchat.com/download.html> to get the latest free demo version firstly.

(123 Flash Chat is a shareware, with 10 concurrent users free edition.)

3) PHP-Nuke Integrated Demo

<http://phpnuke.123flashchat.com/>

4) DIY Installation Tutorial

You host the chat and PHPNuke, ie: chat and PHPNuke are located on the same server, please refer to: "phpnuke_install_mod.html".
