Description

Disposable Email Script Pro not only offers your users with disposable email addresses with pre-defined time limit which users can receive and reply to emails sent to the temporary email address within a timeframe, our script also offers a light-weight webmail with gmail style interface. The Disposable Email Script is also integrated with Google AdSense module to fully maximize your ad revenues. Other features include: AJAX technology (auto-check emails), multi-theme support, admin backend interface, ability to receive attachments, WYSIWYG editor, web-based setup and more. Run your own disposable email service and gmail clone webmail with Disposable Email Script Pro.
