Description

Airhotels Script which is developed for setting up vacation rental websites provides options to add, edit, and delete room spaces. It also provides calendar style view for booking, powerful admin panel with multiple options to administrate the site effectively and enables customers to post reviews on their spaces they have rented.It's one the best clone script preferred by most of the hotel and accommodation space rental websites. If you are looking out to set up a site for renting accommodation spaces, make use of this rental booking script to create an Airbnb clone like website.

This vacation rental software allows your customers to easily browse and choose best rooms for booking. It's one of the most popular ready-made scripts for all kinds of vacation, hotel and accommodation rental websites.
