Description

COMMUNICATION CENTER 1.1 is created for small web projects, for teams who will work directly with client and need his feedback about the status of the project. It can be used as a small BUG TRACKING system. Can be defined by ADMIN several users who will be part of the project.

Features include:

- ADMIN as superuser, only he can add new users
- Can be installed very easy on client side or developer side
- Need to be adjusted only config.inc.php and add database to be used
- BUG list is separated as OPEN and CLOSED
- All users will get mails when new bug, or modified bug
- Multi Language supported
- Based on HTML Templates, very easy to modify
