Description

PHPMaker is an automation tool (for Windows) that can generate a full set of PHP scripts quickly from MySQL database. Using the generated PHP, users can view, edit, search, add and delete records in the database easily on the Web. With the Quick Generate Wizard, you can generate your web site instantly with only a few clicks of the mouse. Clean and straightforward codes which are easy-to-customize. This useful tool can save you tons of time and is suitable for both beginners and experienced PHP developers alike.
